## Thought Provoking

If you have been paying the maximum amount since 1937, when Social Security started, you have been taxed a total of \$2,106. Your employer has matched this amount.

However, in the next seven years, if you earn \$6,600 a year or more, you will pay more Social Security taxes than you did in the past 29 years put together, and so will your employer.

Two million teenagers landed jobs in June bring-

ing the total of Americans at work to a record shattering 75.7 million as reported by the Bureau of Labor Statistics.

Comptroller Fred Dickinson warned county tax assessors that every county in Florida must be at the 100 percent property assessment level by November 1st.

Senate president designated Verle Pope said in Miami that he favors increasing the state's corporate tax to take more of the tax load off of the home owner.

## A Nation Wrecker

U. S. News & World Report, in a recent issue, featured a story on what to expect if inflation becomes the way of life in the U. S. It showed what happens when government fiscal policies in a country result in a permanent upward trend in price indices and the cost of living.

In brief, people lose interest in doing a good job. Shoddy workmanship and unreliability of the individual increases. Young people become indifferent. Thrift is unknown. The chief victims of inflation are the elderly living on fixed incomes. Character erosion accompanies erosion of the value of money. U. S. News and World Report cites many examples in European countries, which

have long accepted inflation as a way of life. In Britain, "Repairmen and various service workers tend to act as if they are doing the customer a favor by accepting an order." In Sweden, young people shun hard work and training — good pay is easy to come by. The United States is already far down the inflationary road to irreparability.

No wonder Russian revolutionary Lenin once said that to ruin a capitalist society, one must destroy its money. Dictatorship is the alternative to capitalism and freedom. It is difficult to believe that the American people wish to sacrifice these on the altar of inflation.

## Florida Farm Safety Week

Day-to-day living seems to be a hazardous task these days. At least this would seem logical when national figures show that during 1965 107,000 persons lost their lives due to accidents and another 10,500,000 persons were victims of disabling injuries.

Accidents kill more than 8,000 farm residents each year, and an additional 700,000 or more are victims of disabling injuries. According to the Florida State Board of Health, Florida, too, has its fair share of accidental farm injuries and deaths.

This is an alarming situation, not only because of the grief to loved ones, the expense, and the unnecessary suffering, but also because of the economic loss to this nation.

It is for these reasons that Governor Burns joins President Johnson in proclaiming July 24-30, 1966 as Farm Safety Week. The proclamation draws attention to farm safety for a period of one week but is intended to emphasize the importance of safety throughout the year.

## Uncle Dan From Doolie Says:

DEAR MISTER EDITOR:

The fellows at the country store Saturday night was agreed that some measures has got to be took to stop Ed Doolittle from fetching all them pamphlets and newspaper clippings to the weekly sessions. Ed bring along so many fingers Saturday night the storekeeper had to fix him a barrel top for a table.

Zeke Grubb come in complaining that daylight saving time was messing up his television schedule. He said it was causing so much confusion all over the country it would be easier to change the sun.

Ed allowed as how he wasn't concerned about daylight saving time in any shape or form, claimed working from sunup to sundown went out of style with the Great Society, that what we got now is a six-hour day with double time for overtime, and we didn't need no more daylight time to do nothing in.

Furthermore, said Ed, he had brought along some fingers on matters that was more important. That was when the storekeeper, Mister Editor, fixed Ed up with the barrel top.

Ed reported the Agriculture Department admitted we was giving India what would amount to one third of all the wheat we could produce in this country in a year. And while we was doing this, said Ed, our dear friend Canada was selling Red

China 60 million bushels of wheat at a fancy price to feed the people we're fighting again over there.

And Bug Hookum butted in to say he had saw in the papers where we was also sending a big shipment of free tobacco to India. He was of the opinion that Congressman Conley, chairman of the Agriculture Committee that owns a big tobacco plantation back in North Carolina, figured the folks in India needed that tobacco so's they could smoke and relax and get their appetites up for eating more free wheat.

Ed had some fingers on the war again poverty showing it was costing \$1.7 billion this fiscal year. This piece Ed had showed they was 6,484 Federal poverty fighters getting \$54 million in wages, with 1,537 of them drawing more than \$10,000 a year and five of them getting more than \$20,000; and several hundred getting \$75 a day as "consultants."

All of the fellows at the store was in favor of fighting poverty and helping the pore folks, but they was agreed that this flood of money we was pouring into the front end of the pore pipe was just a trickle afore it got to the other end where the pore folks was at. But I reckon, Mister Editor, if we can ship

142,000 cans of hair spray to a PX in Saigon, we can spare some of our wheat and keep the pore of the pipe flooded, at least, at the front end.

Yours truly,  
Uncle Dan

## Letters to the Editor...

We feel sorry for you people in Florida. You have a big problem in Belle Glade, Florida when you have to pay 45c for a Coke, 35c for an egg sandwich & 18c for a cup of coffee.

Orlando wasn't this high for a cup of coffee. I thought that Florida was a place for sunshine and fun, not to be robbed out of your money by the people in Florida. When I asked the girl at the restaurant, she laughed at my wife.

I feel sorry for Trailways people if all of the rest are like this. I think there should be something done about these high prices and the people in Belle Glade should do something about these high prices.

## Contempt For The Public

The walkout of 35,400 striking mechanics and ground services workers employed by five U. S. airlines shattered the transportation services needed by more than 190 million Americans. It is ridiculous to describe the strike of International Association of Machinist members as a strike against five airlines. The real victims of the strike were the American people.

This enormously disruptive strike came at the peak of the summer travel season and at a time when a terrible heat wave was afflicting the nation. Hundreds of travelers had their plans disrupted, at a colossal cost in business lost, vacation plans ruined, and in general inconvenience and discomfort. Mail service, which is one of the fundamental needs of any civilized country, was grievously affected.

Why should 35,400 Americans have the right to plunge this great nation into turmoil? It is not as though the IAM members were a cruelly tormented lot who had to make a desperate bid for public assistance. The average wage of striking IAM members is \$4.50 an hour — hardly a starvation wage!

Consider what would have happened had the management of a group of airlines decided that they weren't going to provide air service to a score or more American cities. One can be sure that the announcement would hardly have been made before the White House stated it would take over running of the airlines. Government officials would have declared a management sit-down intolerable. But Big Government handles unionists with kid gloves, as the airline strike again has revealed. Government officials talked and talked with the arrogant union leaders, while thousands of travelers clamored to find ways to get about the country on passenger trains and buses.

The need is not for compulsory arbitration, as some have suggested, but for ending the union monopoly over services needed by the airlines. In short, the airlines should be absolutely free to hire other machinists to replace those who went on strike. They should be free

to hire the conceited young man had been in the hospital for some time and well looked after by the pretty nurse.

"Nurse," said the patient one morning, "I'm in love with you. I don't want to get well."

of union intimidation or retaliation, as has been the case in many union disputes in the past. Unless private enterprise is given back the right to hire people to replace those who are on strike, the country will continue to be held up at gunpoint by labor unions.

The unions, it must be realized, believe that they have a headlock on the country. They believe they can cancel out every public service, whether it is airlines service or subway service in the nation's largest city. For too long the public has done nothing to prevent the unions from continuing to hold this outrageous belief. Perhaps the airline strike has awakened Americans to the intolerable character of union monopoly powers. Only when those monopoly powers are taken away from Big Unionism can the American people be sure that the many, inter-acting parts of the complex society in which they live will work smoothly and without interruption.

But the situation is likely to get worse before it improves. On top of the strike against the airlines are troubles in hospitals. In New York City, for instance, members of the Drug and Hospital Employees Union began work stoppages in mid-July. Laundry, clerical, kitchen and technical employees walked off their jobs, seriously jeopardizing the safe and efficient operation of hospitals and thereby endangering the lives of patients. Even THE NEW YORK TIMES, which has favored the union movement over the years, termed this strike "immoral, illegal and indefensible." The cruel nature of the strike can be discerned from the fact that at one hospital unionists on strike turned away a delivery of oxygen. Thus the unionists would take away from the sick the very breath of life. How much more brutal and callous can a union be?

It is shocking to think that, in their demands for power, union leaders would ignore the desperate needs of the old and the infirm, injured and ill youngsters and young mothers in maternity wards of hospitals. But the grim history of Big Unionism is a history of appalling indifference to or contempt for the vast majority of the people in this country.

"Don't worry," replied the nurse cheerfully. "You won't. The doctor's in love with me, too, and he saw you trying to kiss me this morning."

Make sure you like it before you buy it. You know how long Volkswagens last.

Like it or not, that's Volkswagen. With all the beauty of the funny-looking one. An air-cooled engine that can't boil over or freeze and averages 28 miles per gallon of gas. Which is pretty good for a car that goes 84 miles per hour.

We not only put in a lot of what makes the bug so nice. We also put in a lot of what makes the bug so nice for so long. Sweat.

The Volkswagen fastback is made the same way Volkswagens were made ten years ago. Since most of them are still around, that couldn't be too bad.

It goes through 3,122 inspections. Nothing gets into the car that isn't perfect. For a scratch on the door that only a trained VW inspector could ever see, we'll scratch the whole door.

We even take a lot of pains with what you can see. The paint job involves 2 chemical baths, 3 sandings (one by hand) and 4 coats of paint.

So first be sure you like the fastback. Then be sure to pick a color you can live with a long time.

MR. AND MRS. CHAS. TOMMY LAWSON

## Vows Solemnized Saturday

The First Baptist Church of South Bay was the scene Saturday, July 23, of the marriage of Sharon Olivia Wilder and Charles Tommy Lawson. The 7:30 P. M. candlelight ceremony was performed by Rev. R. L. Polk, pastor.

Palms and arrangements of red roses and baby's breath decorated the church. Mrs. Robert Roadman was organist and Mr. William Ferguson, soloist, sang "Walk Hand in Hand" and "The Lord's Prayer."

The bride is the daughter of Mr. and Mrs. Floyd Wilder, N. W. 2nd Ave., South Bay. She is a graduate of Belle Glade High School attended Palm Beach College and Miami Jackson School of nursing.

The bridegroom is the son of Mr. and Mrs. Otis Lawson, 2566 S. W. 14th St., Pahokee. He is a graduate of Pahokee High School and attended Florida Christian College in Tampa. He is presently serving in the United States Navy as radio man 2nd class.

Given in marriage by her father, the bride wore a floor length gown, of white lace over taffeta, featuring point-toe sleeves, fitted bodice with tiny satin buttons down the back and a scoop neckline. The bell skirt fell into a full chapel train. Her illusion veil was attached to a crown accented with seed pearls and crystals. Her bouquet was of red roses and lily of the valley.

Mrs. Linda Stanley, of Pahokee, sister of the bride was matron of honor. Her floor length gown of turquoise blue, crepe back skirt featured a straight skirt. She carried three long stem red roses.

The other attendants, Mrs. Irene Jerevec, sister of the groom, of Pahokee, Miss Teresa Wilder, sister of the bride, South Bay and Gail Come, cousin of the bride, Pahokee, all wore dresses identical to the honor attendant, and carried a single long stem red rose.

Jean and Deana Tanner, twin daughters of Mr. and Mrs. Don Tanner, wore sleeveless floor length, dresses of turquoise blue crepe

## Xi Beta Gamma Chapter Honors H. Ouellette

Sunday evening the Xi Beta Gamma Chapter of Beta Sigma Phi gathered at the lovely home of Mr. and Mrs. Hector Ouellette of South Bay for a surprise social honoring them before their moving to Lake Clarke Shores.

Cake and coffee were served to Mr. and Mrs. Frank Anderson, Dr. and Mrs. Thomas Baker, Mr. and Mrs. Wm Burke, Mr. and Mrs. Charles Burkett, Mrs. Joe LaFlam and Dr. and Mrs. Howard Hill.

back satin fashioned with empire waist, accented with white velvet bow and carried baskets of red rose petals. Doug Tanner was ring bearer. Troy Martin, cousin of the bride and Calvert Cone lighted the candles and ushered.

Mr. Otis Lawson served his son as best man. Ushers were Jack Stanley, brother-in-law of the bride, Pahokee, Buddy Wilder, brother of the bride, Michael Mikovsky, Belle Glade and Floyd Wilder, brother of the bride, South Bay.

Mrs. Wilder chose for her daughter's wedding a two piece street length dress of canary yellow silk, accented with white beaded trim. Her accessories were yellow and her corsage was an orchid. Mrs. Lawson, mother of the groom was attired in a two piece camellia pink lace dress with white accessories and an orchid corsage.

Following the ceremony the reception was held in the church social hall. Mrs. Richard Murray cut the cake. Mrs. Lois Mullis kept the bride's book. Mrs. Dorothy Shackelford served punch. They were assisted by Mrs. Evelyn Leathlean, Mrs. Ethel Martin, Mrs. Linda Smith, Mrs. Valerie Raby and Mrs. Donald Tanner.

The social hall was decorated with red roses and white wedding bells. The three tiered bride's cake was decorated with pink roses with silver leaves, white bells and traditional bride and groom on top.

Out of town guests present were Mr. and Mrs. Jack

## Belle Glade Personal Notes

Mrs. Eddie Schoepel, accompanied by her sister, Carolyn Thompson, and her parents Mr. and Mrs. J. C. Mock of Pahokee enjoyed a 10 day trip to North Carolina. They spent two days enroute visiting relatives in Georgia, and spent three days at Camp Crestridge for Girls, where Mrs. Schoepel's daughter, Melissa was attending the first Camp session, then went on to their summer cottage at Tuckasegee, and returned home Wednesday after spending a week in the Glades.

Recent house guests of Mr. and Mrs. Jack Little were his son and wife, John and Marcia Little of Westlake, Ohio. They returned home Wednesday after spending a week in the Glades.

Mr. and Mrs. Harris Landing and family are back home after visiting his mother and sister in Port and Swainsboro, Georgia.

Mr. and Mrs. Grover Royston, h. a. v. returned home after visiting her relatives in Port, Swainsboro, Ga., and his parents and relatives in Royston, Georgia.

Mrs. Milton Lang of Delray Beach is visiting her sister, Mrs. T. E. Strickland.

Mrs. W. E. Schechter, Mrs. Luther Jones, Mrs. C. H. Eiland and Mrs. Barney Collier attended a Palm Lake WMU Association meeting at the Victory Baptist Church in West Palm Beach last Sunday.

Recent guests at the L. O. Parker home were her daughter, Mrs. Fred Beach of Meridian, Mississippi, and granddaughter, Miss Jean Marie Whitley of Bradenton. Also visiting were Mr. and Mrs. Carl Whitley and one of Moss Bluff, Louisiana, and Mr. and Mrs. Roy Parker and family of Montgomery, Alabama.

Richards, Aberdeen, Maryland; Mr. and Mrs. Ray Lee and children, Cleveland, Mr. and Mrs. Wayne K. Fortenberry and Joan, West Palm Beach.

Immediately after the reception the couple left for a honeymoon to Ft. Lauderdale, returning to leave on Tuesday A. M. for Norfolk, Va., where they will be at home after August 1.

## Greg Woodham Honored On Sixth Birthday

Gregory Woodham greeted his friends Tuesday afternoon at his home on Northeast Third Street with great enthusiasm. The occasion was his six-year-old birthday party given in his honor by his parents, Mr. and Mrs. Jerome Woodham.

The little guests enjoyed indoor games due to the rainy afternoon.

Gregory acquired no assistance in opening his gifts, but shared the adventure and excitement of playing with them for the first time with his guests.

The serving table was covered with a lace cloth. A beautiful yellow rose decorated birthday cake inscribed "Happy Birthday Greg" brought gas and awe from the children. Mrs. Woodham was assisted in serving birthday cake, ice cream, and punch by Mrs. Jim Paul Crews and Mrs. Eddie Langdale.

Each little guest was presented with favored baskets and party hats. Guests were Susan and Michael Langdale, Jimmie Crews, Laura, Sally and Tommy Miner, Victor Gummere, Randy, Brent and Mark Woodbury, Lane, Catherine Threlkeld, Donna and Scott Woodham, Gary, Dennis, Debbie and Jo Browne, and Patricia Edwards. Other mothers present were Mrs. Elbert Browne and Mrs. Howard Woodham.

Mr. and Mrs. John Schlechter and family and Mr. and Mrs. Wilford Markham and family enjoyed Friday through Sunday at the Commander Motel, Riviera Beach.

Mrs. Hubert Tillery and her daughter, Mrs. Billy Cowart and girls Karen and Kelly enjoyed a weeks vacation at Ft. Myers Beach.

The Dr. L. R. Guerrero home is unusually quiet these days with their sons and Mrs. Guerrero's mother vacationing. The mother, Mrs. Hortensia Pita and the Guerrero's youngest son, Tony are winding up two weeks vacation in Ft. Lauderdale Beach and will return August 31. The older son, Joe is at Camp Tomolo on Five Points Lake, Albany New York since June 28. His parents were recently informed he had won the first award 50 yard rifle shot in camp competition.

## Crech-Buchanan Vows Said In Sylva, North Carolina

MRS. ROBERT YOUNG CRECH, III

In an 8 p. m. ceremony Saturday at Sylva, North Carolina, Miss Jessica Irene Buchanan became the bride of Robert Young Crech, III. The double ring ceremony was performed by the Reverend Robert L. Clegg in the First Baptist Church. Candlelight and palms fashioned of jade ferns formed a background for the lovely arrangements of white spider mums, white gladioli and jade fern. White ribbons and ivy marked the pews and the white wrought iron prayer bench was draped with ivy.

A program of nuptial music was presented by Miss Margaret Candler organist and Mrs. Grover Wilkes, Mr. James Stovall was soloist.

The bride, daughter of Mrs. Roy Candler McClure of Sylva, N. C., and Mr. Jesse Franklin Buchanan also of Sylva, graduated from Sylva Webster High School, attended Mars Hill College and graduated June 1966 from the University of North Carolina at Chapel

Hill with a B. S. degree in Biology. She was a member of the Science and Scribner honor societies.

The bridegroom is the son of Mr. and Mrs. R. Y. Crech, Jr., of West Palm Beach. He is a 1962 graduate of Belle Glade High School, attended Bridgewater College, Virginia and will continue his education as a senior at Western Carolina College, Cullowhee, North Carolina. The groom's grandparents are Mr. and Mrs. W. R. Hooker, Lake Road, Belle Glade and Mr. and Mrs. R. Y. Crech, Sr., Estero Blvd., Fort Myers Beach, Fla.

Given in marriage by her step-father Mr. Roy Candler McClure, the bride wore a belled floor length gown of silk pique de sole styled with a scoop neckline and long fitted sleeves. The bodice and skirt were appliqued with Alencon lace and seed pearl embroidery. The Watteau chapel length train was also appliqued in Alencon lace. Her three tiered veil of illusion was attached to a crown of Alencon lace petals outlined with seed pearls, designed and created by the bride. Her cascade bouquet was fashioned of white sweetheart roses, phalaenopsis and stephanotis.

Mrs. Larry Cope of Staunton, Va., cousin of the bride was matron of honor and Miss Mary Lunsford of Gainesville, Fla., was maid of honor. They wore floor length impure line sheath gowns with Royal blue georgette bodice and blue crepe skirts. The long sheer sleeves were of Royal blue and the ice blue Watteau train was also lined with Royal blue. They carried cascades of Marguerite and yellow daisies.

Miss Nancy Corbin of Sylva, N. C. and Miss Dana Nowlin, cousin of the bride, Virginia Beach, were bridesmaids. They wore identical to the bridesmaids and carried cascades of white daisies.

The junior bridesmaid, Miss Sharon June Hyatt, he was unable to get a cousin of the bride and Miss plane home. He writes his Rachael Crech, sister of the groom, Belle Glade by train if he doesn't worse floor length gowns, of get a plane out before then.

## Shower Fetes Recent Bride

Mrs. David Sullivan, the former Cecelia Mathis of South Bay, was honored at a post nuptial shower on July 19 at 8 p. m. in the Social Hall of First Baptist Church, Belle Glade. Mrs. Maria Busbee kept the bride's book.

A yellow and green color scheme was carried out in the pompom arrangements used about the room. A wedding bell decorated the gift tabled covered with a bridal cloth.

White carnation corsages were presented to the honoree, her mother Mrs. Hilda Mathis and Mrs. J. L. Sullivan of Pahokee mother of Mr. Sullivan.

Games were played appropriate to the occasion and winners were Mrs. Betty Jimmerson, Mrs. Lee Berryhill and Mrs. Frank Willis.

The recent bride was assisted in opening the many lovely gifts by the hostesses.

Refreshments of white wedding cake decorated with gold wedding bells, punch, mints and nuts, were served by the hostesses Mrs. Donna Schoenfeld, Mrs. Ann Welby, Mrs. Kay Davis, Mrs. Maria Busbee, Miss Joyce Rashley and Miss Bobbie Farmer.

ice blue organza over taffeta and their flowers were white daisies. Miss Nancy Crech, sister of the groom, Belle Glade was flower girl in a white silk dress, duplicate of the Junior bridesmaid dresses. She carried a basket of open white roses. Master Roy Bryson McClure, brother of the bride, was ringbearer.

Lane Crech, of Belle Glade served his brother as best man. Ushers were Terry E. Arbogast, Littleton, Colo., Roger J. Barrows, Somerset, Pa., Gregory F. Smith Roaring Springs, Pa., Jack W. Hooker, cousin of groom and Mrs. Mary Lee Buchanan, brother of the bride.

Mrs. McClure, mother of the bride wore a short gown of rose chiffon over satin skirt of pink linen with accessories and a red rose corsage. Mrs. Crech, mother of the bride groom wore a short gown of pink linen with matching lace jacket and accessories. Her corsage was a bouquet of white flowers.

The reception followed the ceremony in the church hall. Jade ferns, palms and baskets of white flowers formed a setting for the bride's table, overlaid with a white linen cloth border.

Following the reception the couple left on a wedding trip and will be at home in Sylva, N. C. after August 24.

Mrs. Beulah Stone and her daughter, Miss Sheryl Stone enjoyed a two weeks vacation with relatives and friends in Burlington and Henderson, North Carolina.

Micky McKee, son of Mr. and Mrs. Jerry McKee, Sr., was released from the hospital at Ronceverte, West Virginia on July 15 after being a patient since June 6. He has been with his aunt, Mrs. J. T. Williams and family in Norfolk, Virginia since his release.

Miss Sharon June Hyatt, he was unable to get a cousin of the bride and Miss plane home. He writes his Rachael Crech, sister of the groom, Belle Glade by train if he doesn't worse floor length gowns, of get a plane out before then.

## Education Is Big Business

The Board of Public Instruction of Palm Beach County will continue to review the tentative budget as released last week for the operation of the county school system for 1966-1967. The proposed budget has an overall gross total of \$73,013,129.26 as compared to the 1965-66 budget of \$73,419,135.66. This total contains amounts reflected in the 26.75 million dollar school building bond issue plus other transfers.

Most people who seek information regarding the annual budget, think in terms of the operational budget

which for the coming year is \$39,219,338. This included the cost of the county's instructional program and teachers salaries. The operational budget is where the revenues are listed to pay these costs and the revenues come from local, state and federal sources in that order of importance.

The county superintendent points out that 80¢ of every revenue dollar received in the operational budget is spent in the instructional program. Since one mill tax in Palm Beach County produces about \$2.3 million, any reduction of the budget strongly affects the instructional program.

For the first time all schools in Palm Beach County are accredited although many only achieved a Rank One standard among some 1800 categories in which they are rated. Last year school membership reached a peak enrollment of 36,491 for the 87 schools in the system. There will be six new elementary schools and one new junior-high school opening in September of 1966. Some budget items which

are increased in the proposed budget are: increased pay for custodians and clerical personnel. Records show over a 30 per cent turnover annually among this work force. Replacement of equipment in lunch room kitchens and new equipment for business education courses are included, also transportation replacement of old buses and additional buses. The county operates a fleet of 165 buses, traveling some four million miles each year. Last year the 87 schools served over 6 million meals and will serve some 12 million half pints of milk next year.

A note of interest to Palm Beach residents is that less than ten per cent of the Junior College budget comes from county taxes. The school board this year provided \$320,099.

## Summer Auto Safety

Watch out for children playing on drives and in streets. Last year more than 300 children were struck and killed in their own driveways. In a split second a child running after a ball may become a fatality statistic. Drive slow in areas where children are at play. They're concentrating on games, not street traffic. Before getting into the car, check in front and back to see that the path is clear of children and toys.

# TRAVEL AND VACATION

JERUSALEM - OLD JERUSALEM L'Antienne Ville

Mrs. Ruth Wedgworth and Mrs. Edith Freedlund were touring the Mediterranean countries, including the Holy Land, and the following is a letter from Mrs. Freedlund concerning the trip.

Haifa, Israel. We crossed thru the Mandelbaum Gate from Jerusalem, Jordan to Jerusalem, Israel. Our guide Taxon Jacob from Tel Aviv, was waiting for us with a bus and driver. Mr. Jacob is a man thirty eight years old who teaches Bible in the winter months. He told us in detail the beliefs of the Jews, Catholics, and Protestants. In our group of seventeen there were four Catholics and two Jewish women who joined us in Tel Aviv, Israel, as Jews are not allowed in Jordan, or any of the Arab nations. Israel was founded eight-

diamonds are polished and cut every year.

We climbed up to the top of Mt. Zion, the Holy Place where King David was buried. There were many people here who came to kiss the Tomb and send a message thru David to God.

The park outside was filled with people eating following their visit to the Tomb. Upstairs in an adjoining building is the supposed room of the Last Supper. The Catholics believe that Mary, the mother of Jesus, died here and was assumed to God. As we looked we saw sandbags and machine guns in some upstairs windows. This is right at the border between Jordan and Israel.

We saw the Valley of Hell where children were sacrificed to idols. The hills are very rocky, and people lived in caves along the slopes. Some are still living there

who is now a Saint. This is the Homeland of the Jewish people, believed for 2,000 years to be the Promised Land. In the past 18 years, two million people have come here from seventy countries. The guide was very emphatic in his thanks to the American people for their help. Capernum, which was destroyed long ago, has never been rebuilt. There has been a Synagogue built over the house of Peter.

We came to Nazareth, the Holy City of Christendom. Jesus performed his first miracle here, turning the water into wine for the wedding. There is a Greek Orthodox Church built over the well where Mary Magdalene met Jesus. There is a man inside who lets a bucket down, which is filled with cool, clear water.

We visited a Kibbutz Settlement. This type of community living was started in 1910 by seven boys and one girl. The land is given to them by the government. All the children are raised in a nursery and at the age of fourteen or fifteen the boys and girls are separated. The parents see them in the evenings and on weekends. The men and women both work. Their jobs ro-

tate. We walked thru some of the buildings. There are four small beds in each bedroom in the children's dormitory. Some children were swimming. Everything was very neat, and clean and everyone seemed happy. There were large fields of bananas. They have to put a plastic bag over each bunch of bananas so the bats won't eat the fruit. One woman we talked to was a refugee from Egypt and had two children. She was working in the nursery, and was very contented. There are five hundred people living in these Settlements, and more are being formed. Our guide had lived in a Kibbutz village for five years. When we asked him why he left he smiled and told us that his wife liked fancier things and was not satisfied in the Kibbutz. They are trying to start some of these Kibbutz Settlements in Africa.

## Lt. Col. Emmett S. Roberts Retires From Active Reserves

Lt. Col. Emmett S. Roberts, Quartermaster of the 3220th U. S. Army Garrison in West Palm Beach, and senior member of the Palm Beach County Legislative Delegation, has retired from the active reserves.

Joining the U. S. Army in 1943 as an enlisted man, Lt. Col. Roberts was graduated from OCS and commissioned as a 2nd Lieutenant in 1945. He served in the European Theatre during World War II.

Col. Roberts has been a member of Army Reserve Units in West Palm Beach since 1946. A charter member of the old Everglades Chapter ROA in West Palm Beach, he has retired from the West Palm Beach Chapter.

The veteran legislator is currently serving his sixth term as a member of the Legislature. Educated at the University of Florida, he

## Services Held For White Infant

Gravestone services were held Thursday July 21, at 10:00 a.m. for Michael Bruce White, Jr., infant son of Mr. and Mrs. Michael Bruce White of LaBelle. The 18-day-old child succumbed July 18. He was the great grandson of Mrs. Cora Price and great-nephew of Mr. and Mrs. John White of Belle Glade.

## Vacationing Here And There

Mr. and Mrs. John White, Reed and Suie enjoyed a three weeks vacation at Ft. Myers Beach. They were joined there by Mr. and Mrs. Truitt White and family of LaBelle and Mr. and Mrs. Glenn Swindle and family of Immokalee.

Mr. and Mrs. Lynwood Fuller are back from a two weeks vacation. They spent a week in Jamaica, while their son, Gary, visited his grandmother, Mrs. H. M. Fuller, in Haines City. They reported they had heavy rains while in Jamaica, but the weather was beautiful the second week of their vacation which they spent at Panama City Beach.

Burton B. Rawls, Sr., and his grandson, Ronnie Cooper are vacationing for several weeks in Colorado. They planned a full sight-seeing schedule, including Pikes Peak and the Grand Canyon. Ronnie also expects to get in some snow skiing. They will visit in Littleton, Colorado with Mr. and Mrs. Alan Oman and family, and with Mr. and Mrs. Tommy Prince and family in Lakewood, Colorado.

Mr. and Mrs. Grant Van Sickle and daughter Vicki Lynn have returned from a two weeks vacation. They visited her son-in-law and daughter, Mr. and Mrs. Jimmy Beiersdorfer at Inman, South Carolina, where he is with the Federal-State Inspection service during the

peach season. While there they went sightseeing at Chimney Rock, N. C., Maggie Valley, Cherokee Indian Reservation, and went picnicking at Rainbow Lake and Spartanburg, S. C. They enjoyed the scenery along the Blue Ridge Parkway on the way South.

Mrs. Kathleen Livingston enjoyed several days, Thurs day through Sunday, at the Commander Motel, Riviera Beach.

teen years ago when the United Nations split Palestine. There are now 2,600,000 people living here, 300,000 Gentiles and some Moslem, Greek, Catholic, and Protestant. The country is 490 miles long, 60 miles in the widest part, and 6 miles in the narrowest part. They have compulsory military training for boys and girls at the age of eighteen. There are high schools where there are classes only a half day, then the boys work in agriculture. There are six thousand square miles of desert and it is amazing how the rest of the land has been improved. In the past eighteen years twenty five million trees have been planted. Whenever a Jew dies, the family send \$2.00 and a tree is planted in his memory. These forests are named for men who have made contributions to the country. We passed by the Truman Forest. A memorial is being built honoring President Kennedy - a tree with the top cut off. This will be dedicated in the near future.

There has always been a grave problem of water shortage. Sugar beets are grown here instead of sugar cane for this reason. They export oranges, bananas, peanuts, and many other fruits and vegetables. Here we see the Combines which cut and bale wheat. There are many other modern machines and equipment. Four hundred and fifty million dollars worth of

now.

Mary's Tomb is under a beautiful Cathedral. The circular room has many paintings of the women of the Bible. In the center surrounded by a railing is the tomb with a statue of Mary lying on the Sarcophagus. There are candles burning, and beautiful white flowers. It is an inspiring sight.

The Dead Sea Scrolls were discovered by an Arab Exodist was published in 1947. A beautiful building has been built to house these, and other important findings - cooking utensils, Jugs, Knives & Swords of that period. The Book of Isaiah, written many hundreds of years before Christ is well preserved and is in a circular well lighted show case. Near this building is the Billy Rose Garden. This is a large area covered with fine white rock, and in it are many modern pieces of sculpture. Since the book Exodus was published six years ago, Israel has enjoyed an increase of tourists.

The Hebrew University, founded in 1925, has 12,000 students - 300 from foreign countries. As we drove thru Tel Aviv we were impressed with the many new modern apartment buildings. There are women policemen here. There are automobile horns allowed here, and there are no TV broadcasting stations. There are many libraries and they want to encourage reading. Stores are closed from 1 till

## De Interés En Los Glades

Por el Canal 5 de Televisión, el domingo 31 de Julio, a las 6:30 pm podrá usted ver a algunos amigos y vecinos de Belle Glade.

Mr. Robert D. Angio, coordinador de las Clases de Adult Basic Education obtuvo que el fotógrafo del Canal 5 viniera y sacara una película de las Clases de Inglés para extranjeros que se están dando en el Belle Glade Junior High School, auspiciadas por el Departamento de Adult Education del Palm Beach County.

Hay dos clases de Inglés que se están dando este verano. La clase avanzada enseñada por Jon Mann, con Mrs. Margie La Guardia como asistente. Y la clase para principiantes enseñada por Charles Eason, quien se halla en estos momentos de vacaciones. Riley Foster lo substituye. Estas clases tienen una buena asistencia regular, aunque es la época de vacaciones.

Aquellas personas que les gustara asistir a una de estas clases, les interesara ver el documental en TV. Mrs. La Guardia nos informa que una clase intermedia será formada, puesta en marcha, en unos 40 alumnos en las clases de principiantes.

Estas clases son los Lunes y Jueves en la tarde, de 7 a 10. Cualquiera que desee más información puede llamar al Colegio.

Numerosos venados mueren en las áreas inundadas de los Glades. No solo los pequeños sino también los ciervos grandes. Los biólogos también reportan que debido a estar expuestos a las condiciones de inundación, se les cae el pelo de su piel. El Florida Flood Control District indicó el sábado que el nivel del agua en el Área Conservación 3, estaba pie y medio más alto que en el primero de Julio. Y que aunque no llueva, se pueden esperar que baje el nivel del agua, por lo menos en 30 días más.

Mientras tanto la comisión de cacería está tomando medidas de emergencia para alimentar los animales e irlos mudando a áreas más secas.

La Universidad de Palm Beach, anunció en Julio 22, que la matrícula para un curso especial intensivo, de una programa tardío de verano, esta ahora abierta.

Este programa será completado a fines de Agosto, incluyendo cursos en escritura rápida, mecanografía, maquinas de oficina, operación de maquinas de programación. La matrícula se llenaba en las Oficinas de 660 Fern Street.

El trabajo progresó en el proyecto federal de completar el dique que rodea el Lago Okeechobee. En el límite norte del Martin County, al norte del puente Port Mayaca, una gran draga bombardeó la arena. Este proyecto se realiza en conjunto con el U. S. Army Corps of Engineers.

Un nuevo curso de ITALIANO será ofrecido en el Otoño, en el Palm Beach Junior College, recién creado por el Departamento de Lenguaje Moderno.

En el estudio de lenguas hay actualmente una demanda por italiano. Hace pocos años pedían estudiar ruso, pero ahora el entusiasmo cambió para ese otro idioma.

### Ila Darden Society Meets With Mrs. Eiland

The Ila Darden Missionary Society met at the home of Mrs. C. H. Eiland Tuesday morning for a social and program meeting. During the business meeting, plans were made and volunteers invited to participate in the Vacation Bible School to be held from August 1st through 5th at the Osceola Baptist Church by Mrs. Walter Schlechter. Also announcement of the Palm Lake Association Missionary Union meeting at Victory Baptist Church, West Palm Beach.

Mrs. Eiland gave a most interesting program on missionary work in Portugal.

Afterwards, refreshments were served in the dining room from a beautifully appointed, lace-covered table to the following:

Mrs. Schlechter, Mrs. T. E. Strickland, Mrs. Fritz Stein, Sr., Mrs. Luther Jones, Mrs. W. T. Forsee, Jr., Mrs. Rose Armstrong, Mrs. Harrell, Mrs. Tilton and others.

### Presbyterian Church Has Guest Speakers

Guest speaker at Everglades Presbyterian Church Sunday, July 24th, was Mrs. Miriam Kallany, a licensed local preacher, from the Community Methodist Church. In attendance to hear her were members of her family representing 4 generations. Those who heard Mrs. Kallany were inspired by her efforts to serve her Lord.

This coming Sunday, July 31st, the guest speaker will be Mr. Spotty Burr also from the Community Methodist Church. The public is cordially invited to hear this well known lay speaker this Sunday.

### Sermon Topics

**COMMUNITY METHODIST** — Dr. Harry F. Henry of Lake Worth will again bring the Sunday sermons at Community Methodist Church on July 31, during the absence of Rev. Boland.

At the morning service his topic will be "If," and in the evening he will speak on "Life Is So Interesting."

### Lutheran Kindergarten Commences August 29

The second annual session of St. Peter's Lutheran Kindergarten will commence on August 29th at 8:30 A. M. The first day will be an open house giving the parents and children an opportunity to meet informally with the faculty.

The teaching staff for the 1966-67 session will consist of Mrs. James Snyder of 1057 Wedgworth Road, Mrs. Richard Roseman, and Reverend R. Y. Roseman, pastor.

St. Peter's Lutheran Kindergarten is a Christian Kindergarten, that is, it seeks to instill the teachings of the Christian religion into the children. This is done, not by a special course of religious instruction, but through the application of Christian principles to the entire course of studies.

The fields of studies to which the students are exposed are as follows: reading readiness, number concepts, language development, preliminary writing, music appreciation, natural science, social studies, recreation, Bible stories.

St. Peter's Lutheran Church — Missouri Synod sponsors and maintains the Kindergarten. Administrative control and formation of policy rest with the church's governing body, the Voters' Assembly. A delegate Board, the Board of Christian Education, is responsible for the development and execution of the school's policies, regulations, and practices.

A student must have reached his fifth birthday before January 1, 1967 in order to be enrolled in St. Peter's Lutheran Kindergarten. The tuition is \$5.00 a week, in addition to a \$5.00 registration fee. The tuition and registration fee covers complete insurance coverage on each child from the time he leaves home for Kindergarten until he returns home afterwards. The tuition and fee also pays for all supplies, as well as daily refreshments.

The new school hours for St. Peter's Lutheran Kindergarten will be from 8:30 a. m. until 11:30 a. m. each day, Monday through Friday. The daily schedule will be as follows: 8:30-8:40 opening devotions; 8:40-9 Numbers and arithmetic; 9-9:15 Alphabet; 9:15-9:25 Freetime; 9:25-9:45 Weekly reader; 9:45-10 Refreshment; 10-10:15 Nature Study; 10:15-10:30 Recreation; 10:30-10:45 Music appreciation; 10:45-11 Seasonal study; 11-11:15 Bible stories; 11:15-11:25 Clean-up; 11:25-11:30 Closing devotions.

Applications for Kindergarten registrations may be obtained at the Church Office of Saint Peter's Lutheran Church, 601 West Canal Street North, Monday thru Thursday or by calling 996-5656 or 996-6721.

### Church Of God Prepares For Child Care Center

The Belle Glade Church of God has made application to the Palm Beach County Health Department to operate the Glades Child Care Center at 447 S. E. 3rd Street. The Health Department inspection of the facilities to be used showed only minor adjustments to be made to comply with all the State and County and City laws.

The Glades Child Center will be licensed to care for 32 children from 6 months to 7 years old. The hours of operation will be from 7 A. M. to 6 P. M. The building to be used is only 18 months old and is modern in every respect with air conditioning, terrazzo floors, modern tiled toilet facilities and fully equipped kitchen for the preparation of food.

The Center will be under the supervision of Mrs. M. W. Sindie, the Pastors' wife and additional personnel will be employed to make it second to none in the State.

The rates will be \$10.00 a week for 5 days this will include noon meal and a morning and afternoon snack. The daily rate will be \$2.50. All children must have a physical examination before being enrolled and must be on file before the child can be accepted. This will also include the children that parents might want to leave for just one day. It is suggested, if you plan to use the Glades Child Care Center that you have the child's health record on file. Where there is more than one child registered from one family the second, third etc., will have reduced rates on a graduated scale.

The opening date will be announced.

### Presbyterian Pastor Attending Worship Seminar

The Reverend J. Paul Vondracek, Pastor of the Everglades Presbyterian Church of Belle Glade, Florida, will be at Union Theological Seminary, Richmond, Virginia, from July 25 thru August 5 attending a Seminar on Worship, which is being offered as a part of the Summer Program at the Seminary.

Pastors from twenty-seven states and three provinces of Canada, representing nineteen denominations, will be working in a Doctrinal Seminar, a Worship Seminar, or a Preaching Clinic as each chose.

In the Summer Program the pastors are brought together in small groups under expert guidance. The Doctrinal Seminar, designed to sharpen understanding and increase competence in the theological tasks, has the theme "Theology for the Parish Minister." The Worship Seminar is intended to help worship leaders evaluate current trends and become more effective in the practice of worship. The Preaching Clinic offers opportunity for a minister to preach for critical evaluation and to test recommended remedies, with audio and video tape recordings made of the preacher as he speaks.

Now in its fourteenth year the Summer Program seeks to enable pastors to become more effective in their primary roles as parish ministers, leading their congregations in worship and interpreting the Bible and Christian doctrine to their people.

Rev. Henning will be the special speaker for the 11:00 A. M. Service and also 7:30 P. M. Service on Sunday.

The Alliance Church is located at 524 East Canal St. Sunday school is at 9:45 A. M. Morning Worship at 11 a. m.; Alliance Youth Fellowship, Junior Fellowship, Junior and Senior Groups at 6:15 P. M. Sunday Evening Service at 7:30.

## Right and Wrong

"For it is better to suffer for doing right, if that should be God's will, than for doing wrong." — Peter 3:17

In this marvelous age we live in, machines do many things for us. Tasks once accomplished only by hours of strenuous toil and sweat on the part of many hands can now be done by a single machine in a matter of minutes. A machine can perform only a limited number of functions. In proper parlance, it must be "programmed" for each individual function it performs. If it is an "answer machine," it cannot answer a particular question unless the answer has been "programmed" into the machine. In simple words, a machine cannot think.

Man is different. Man has the powers of reason. As a consequence, he is forever in the role of a decision-maker. He has a built-in "mechanism" — his conscience — which concerns him with "right" and "wrong."

The wise man learns through experience that making the "right" decision, though perhaps unpopular, is always the proper thing to do.

## Value Of Florida's FarmLand Increased 208% In 10 Years

"Above all, you have influenced the quality of American life," a Florida educator told Florida Extension Homemakers meeting here for the 42nd annual Extension Homemakers Short Course.

Dr. J. Wayne Reitz, president of the University of Florida, said that the technology provides the base for America's unsurpassed production of food and fiber, but that Extension Home Economics helps the family use this production for better life.

"Groups like yours assure that there will be a better quality of living in Florida, the nation, and the world,"

Dr. Reitz continued.

Dr. Reitz pointed out that Extension Homemakers are a part of the greater student body of the University of Florida. Continuing education beyond the campus and the classroom is becoming increasingly important in the rapidly changing world. Such education applied to the home and family is a vital part of progress in the state and the nation, he said.

Harold Cole, executive vice-president Florida Chamber of Commerce, told the Homemakers that the sale of Florida's farm products, at farm level, came close to the billion dollar mark last

year, according to the latest revised figures. This upward moving level of cash farm receipts is one reason for the gain in farm land value — 208 percent during the past ten years.

"This long-term gain was the largest in the nation and compares with a 72 percent national average increase," Cole said.

Cole said that Florida's population is officially estimated to reach at least 9.3 million and may swell to 11.1 million by 1988.

The Homemakers participated in special interest groups on personal development, conservation and international affairs.

Lettuce came to America with Columbus in 1494, says the Florida Fruit and Vegetable Association. It was cultivated on Isabela Island in the Bahamas about that time.

In Senate Bill

## \$220,000 For Sugar Cane

Senator Sponsard Holland chairman of the Appropriations subcommittee for agriculture reported this past week the Agriculture bill to the Senate. Debate on the \$7 billion measure is presently under way.

Of interest to Glades interests and Florida agricul-

ture are these items now included in the Senate Bill: \$220,000 for sugar cane research at Canal Point for new type cane on cold lands \$220,000 for research on infectious horse anemia, known as swamp fever, \$130,000 for accelerated research on virus diseases affecting citrus.

The bill also requests the Department of Agriculture to prepare and submit to the Senate a program to bring about the earliest practical utilization of Labor saving devices in the harvesting and processing of crops which require large amounts of seasonal hand labor.

This program will be of tremendous interest to Glades farmers and others, particularly citrus growers, who have been hit by the Department of Labor's unreasonable restrictions on use of off-shore labor. Almost every agricultural commodity raised in Florida would be assisted by this bill.

### Bad Weather Results In Lower Sales

Lots of rain and bad weather — too hot to work — are contributing factors to prices being off a little more each week at Glades Livestock Market, manager Peter Clemens reports.

Market was steady for Monday's sale, except for calves. Both slaughter and stocker calves were off about \$1.00 to \$2.00 all other classes of cattle steady.

### "Powerful" Totem Pole

Richard Dotsler, 18-year-old Miamian, took 58 hours to create the 16-foot totem pole shown above, Richard, left, used wood chisels and a leather mallet to fashion the awesome features from an old utility pole. The totem was erected at the Boy Scout Camp in the Wildlife Preserve which covers 1,700 acres of Florida Power and Light Company's Turkey Point plant site. McGreggor Smith, FP&L Board Chairman, and Richard's younger brother, Stephen, admire the finished totem.

It all started as a summer project at Miami's Kinlock Park Junior High School recreation program for 15-year-old Richard Dotsler, 435 S. W. 64th Court.

Now Richard has created a "giant" that wards off evil spirits from the Boy Scout Camp, located in the 1,700-acre Wildlife Preserve of Florida Power and Light Company's Turkey Point plant site.

What is this giant? Why

it's nothing more than an old utility pole carved into a brightly colored, five-faced, 16-foot Indian totem pole.

Richard's totem pole took 58 hours to design, carve and paint. He used three different sized wood chisels and a leather mallet to carve the awesome features. Richard's creative ability was brought to the attention of FP&L Board Chairman McGreggor Smith by

## Belle Glade Girls At Camp Crestridge

Camp Crestridge for Girls opened its first of 2 five week sessions of YACATON MAGIC on June 8 1966, with 11 Belle Glade girls attending the first session.

Miss Arvine Bell, Camp Director, assisted by Miss Johnnie Armstrong planned a season of fun-filled, skill packed, worship-centered activities, and delightful staffers helped have a well rounded social experience which recognizes the necessity of God, friends, church, nature and leisure.

The "air-conditioned" Blue Ridge Mountains offer the setting — and what a beautiful one it is! Campers come from near and far to enjoy the craggies, peaks and valleys. They find strength in the Crestridge Chapel so especially designed for them. They find joy in knowing and loving new friends both in and out of their cabins. They enrich their interests in life with creative opportunities offered in Drama, Music, Art, Sports, Camp Crafts, Hired and many other areas.

Jan Bottoms, who lived in Belle Glade awhile is one of the staffers and is doing an excellent job and is loved by all the campers. Jan started the first session off by getting hit by a ball and being temporarily knocked unconscious in a camper-staffers softball game.

SUE GILBERTS Cabin received the highest honor on Chickasaw village for having the cleanest cabin all session. Ann Cox received 2nd place in knitting in the arts and crafts show.

LYN GILBERTS cabin received the highest honor in Chippewa village for having the cleanest cabin all session. JOAN HARRIS was on the STARDUST, camp newspaper, staff. ANN THOMPSON entertained with her guitar during a roller skating party in the gym while other Cheyenne sang familiar songs.

MELISSA SCHOEPPPEL & AGGIE GRESSINGER performed in the synchronized swimming. SHARON THIEBAUD mastered a canoe in the canoe races.

Almost every year a Belle Glade girl is represented in the Queen's Court. This year CYNTHIA THIEBAUD received the honor of being a Maid in the Queen's Court, chosen through the Council of Progress. This is an outstanding feature of Camp Crestridge and the weekly ceremony becomes the challenge for many campers to grow into better campers, better citizens, and better Christians.

A Crestridge bus tour of Europe has been planned to begin on August 17, 1967, and to continue for 21 days. This will be directed by Miss Bell and Miss Johnnie Armstrong. Miss Jan Bottoms is on the bus to go too. Visits to seven countries are on the schedule and stops will be made at mission points and other centers of interest.

Many parents, grandparents, and friends attended the closing program. On Sat, July 9 a water show was held and the girls performed in synchronized swimming, canoeing, and contest in various types of swimming. July 10, Sunday, visitors attended the Chapel services and ate buffet with the campers and staff. Later in the afternoon, a craft show was held and the many articles made by campers were exhibited. This was followed by a Music Festival presented by the Chorus.

An overhead irrigation system, powered by two 25-HP electric motors, takes care of 170 acres of citrus. "All we have to do is press a button ... it's that simple," says C. A. Hughes, manager, Latto Grove at Alva, Florida.

## Irrigate for Profit ...ELECTRICALLY!

A few weeks before the severe drought ended in the spring of 1965, the Latto Grove installed an irrigation system operated by electric pumps.

"The old trees were suffering severely and it was interesting to see how they responded to water," says Mr. Hughes. "Also, the new trees are given doses of water on sandy areas when we get a series of dry days."

Electric powered irrigation or seepage pumps are dependable, economical and labor-saving. Simple to control with float switch, time clock, or pushbutton.

## Adult High School Diplomas Earned By 319 PBC Students

Adult high school diplomas were earned by 319 students during the recently concluded 1965-66 school year, it is announced by Paul L. Phillips, director of the county school system's Department of Adult and Continuing Education. Phillips said this was "a sharp increase over the preceding year when 249 adults were issued high school diplomas. The report received high commendation from County Superintendent Robert W. Fulton who praised the successful department on its successful year. Mr. Fulton said he hoped that many hundreds of other adults will take advantage of the county's public adult educational opportunities during the coming 1966-67 school year. The Adult Education Department's report said: The 319 adults earned their diplomas either by taking review classes and

then the Florida State-wide multiple earned the Equivalency Diploma or by enrolling in adult classes at night. One hundred thirty-nine adults earned their diploma based upon credit courses. These were awarded at the credit centers throughout the county: Palm Beach High School, West Palm Beach 38; Carver High School, Delray Beach 10; John F. Kennedy High School, Riviera Beach 9; Belle Glade High School, Belle Glade 10; Pahokee High School, Pahokee 5; Roosevelt High School, West Palm Beach 12; Lake Shore High School, Belle Glade 21; East Lake High School, Pahokee 1; Riviera Beach High School, Riviera Beach 4; Seacrest High School, Delray Beach 3; and John I. Leonard High School, Lake Worth.

## Tips On How To Save At The Grocery Store

Dollars spent for nutritious foods your family enjoys are dollars well spent, states Miss Mary Todd, Extension Home Economics Agent for Palm Beach County. Most homemakers could spend less and still have nutritious, easy-to-prepare meals for her family to enjoy. To do this select foods based on food values, quality and price per serving. The average shopper spends about 25 cents of each food dollar for beef, pork, veal and lamb; another 11 cents for other high protein foods — chicken, turkeys, eggs and fish. You can easily make adjustments in this type of food by using less expensive cuts, meat alternatives, and food advertising to better advantage as well as by making cost comparisons in the store. Miss Todd says hamburger and liver, relatively low in cost, have the same health value as higher-priced beef steaks. Two large eggs, a half cup of cottage cheese or three ounces of

cheddar cheese provide about the same protein value as a four-ounce serving of meat. Baked beans or peanut butter are low-cost protein alternatives. A serving of mullet provides the same high quality protein that the more expensive whitefish does. By using meat featured each week, you save from ten to twenty cents per lb. compared to their regular price. If you have a freezer, store meats the family likes each time they are featured for a sizeable savings over a period of time. Chuck roasts often sell for less in the summer. Tender beef steaks often sell for less during the winter. Nonfat dry milk costs about eight to ten cents per quart, yet is the same as fluid milk when water is added. It can be used in any way that other slim milk is used... in cooking and for drinking. Canned fruits and vegetables are usually time and money savers. Many cost less than their fresh coun-

terpart. Save by buying the grade of a canned product best suited for use. Tomatoes for chili need not be the same quality as tomatoes served as a side dish. Peaches for cobbler need not be the same perfect shape and size that one might choose for peach halves served as a salad. Miss Todd says learning guides for quality when selecting meat and fresh eating tomatoes or bruise other fruit add to the total cost of these foods for everyone. Call Miss Todd at 683-1252 or write 531 North Military Trail, West Palm Beach, for a free copy of "Tips on Selecting Fruits and Vegetables," "When You Buy," and a recipe booklet, "Green Vegetables for Good Eating."

## Value Of Florida's Farm Land Increased 208% In 10 Years

"Above all, you have influenced the quality of American life," a Florida educator told Florida Extension Homemakers meeting here for the 42nd annual Extension Homemakers Short Course.

Dr. J. Wayne Reitz, president of the University of Florida, said that the technology provided the base for America's unsurpassed production of food and fiber, but that Extension Home Economics helps the family use this production for better life.

"Groups like yours assure that there will be a better quality to living in Florida, the nation, and the world,"

Dr. Reitz continued. Dr. Reitz pointed out that Extension Homemakers are a part of the greater student body of the University of Florida. Continuing education beyond the campus and the classroom is becoming increasingly important in the rapidly changing world. Such education applied to the home and family is a vital part of progress in the state and the nation, he said.

Harold Cole, executive vice-president Florida Chamber of Commerce, told the Homemakers that the sale of Florida's farm products, at farm level, came close to the billion dollar mark last

year, according to the latest revised figures. This upward moving level of cash farm receipts is one reason for the gain in farm land value — 208 percent during the past ten years.

This long-term gain was the largest in the nation and compares with a 72 percent national average increase," Cole said.

Cole said that Florida's population is still estimated to reach at least 9.3 million and may swell to 11.1 million by 1988.

The Homemakers participated in special interest groups on personal development, conservation and international affairs.

### "Powerful" Totem Pole

Richard Dotzler, 15-year-old Miamian, took 58 hours to create the 16-foot totem pole shown above. Richard, left, used wood chisels and a leather mallet to fashion the awesome features from an old utility pole. The totem pole was erected at the Boy Scout Camp in the Wildlife Preserve which covers 1,700 acres of Florida Power and Light Company's Turkey Point plant site. McGregor Smith, FP&L Board Chairman, and Richard's younger brother, Stephen, admire the finished totem.

It all started as a summer project at Miami's Kinlock Park Junior High School recreation program for 15-year-old Richard Dotzler, 435 S. W. 64th Court. Now Richard has created a "giant" that wards off evil spirits from the Boy Scout Camp, located in the 1,700-acre Wildlife Preserve of Florida Power and Light Company's Turkey Point plant site.

What is this giant? Why

it's nothing more than an old utility pole carved into a brightly colored, five-faced, 16-foot Indian totem pole. Richard's totem pole took 58 hours to design, carve and paint. He used three different sized wood chisels and a leather mallet to carve the awesome features. Richard's creative ability was brought to the attention of FP&L Board Chairman McGregor Smith by

Kinlock Park Assistant Principal Harold Smith. "I told McGregor Smith about the boy's work on our totem and he decided the new Scout Camp needed something to help make it authentic," he said. The Kinlock Park ninth grader, McGregor Smith, Richard's younger brother Stephen and an FP&L pole crew erected the totem pole last week at the Camp site.

## Belle Glade Girls At Camp Crestridge

Camp Crestridge for Girls opened its first of 2 five week sessions of VACATION MAGIC on June 8 1966, with 11 Belle Glade girls attending the first session.

Miss Arvine Bell, Camp Director, assisted by Miss Johnnie Armstrong planned a season of fun-filled, skill packed, worship-centered activities, and delightful staffers helped have a well rounded social experience which recognizes the necessity of God, friends, church, nature and leisure.

The "air-conditioned" Blue Ridge Mountains offer the setting — and what a beautiful one it is! Campers come from near and far to enjoy the cragges, peaks and valleys. They find strength in the Crestridge Chapel so especially designed for them. They find joy in knowing and loving new friends both in and out of their cabins. They enrich their interests in life with creative opportunities offered in Drama, Music, Art, Sports, Camp Crafts, Riding and many other areas.

Jan Bottoms, who lived in Belle Glade while in one of the staffers and is doing an excellent job and is loved by all the campers. Jan started the first session off by getting hit by a ball and being temporarily knocked unconscious in a camper-staffer softball game. SUE GILBERTS Cabin received the highest honor on Chickasaw village for having the cleanest cabin all session. Ann Cox received 2nd place in knitting in the arts and crafts show. LYN GILBERTS cabin received the highest honor in Chippewa village for having the cleanest cabin all session. JOAN HARRIS was on the Sturdyard, camp newspaper, staff. ANN THOMPSON entertained with her guitar during a roller skating party in the gym while other Cheneys sang familiar songs. MELISSA SCHOEPPEL AGGIE GRESSINGER performed in the synchronie swimming. SHARON THIEBAUD mastered a canoe in the canoe races. Almost every year a Belle Glade girl is represented in the Queen's Court. This year CYNTHIA THIEBAUD received the honor of being a Maid in the Queen's Court, chosen through the Council of Progress. This is an outstanding feature of Camp Crestridge and the weekly ceremony becomes the challenge for many campers to grow into better campers, citizens, and better Christians.

A Crestridge bus tour of Europe has been planned to begin on August 17, 1967, and to continue for 21 days. This will be directed by Miss Bell and Miss Johnnie Armstrong. Miss Jan Bottoms is on the list to go too. Visits to seven countries are on the schedule and stops will be made at mission points and other centers of interest.

Many parents, grandparents, and friends attended the closing program. On Sat, July 9 a water show was held and the girls performed in synchronized swimming, canoeing, and contest in various types of swimming. July 10, Sunday, visitors attended the Chapel services and ate buffet with the campers and staff. Later in the afternoon a craft show was held and the many articles made by campers were exhibited. This was followed by a Music Festival presented by the Chorus.

An overhead irrigation system, powered by two 25-HP electric motors, takes care of 170 acres of citrus. "All we have to do is press a button and it's that simple," says C. A. Hughes, manager, Lottio Grove at Alva, Florida.

## Irrigate for Profit ...ELECTRICALLY!

A few weeks before the severe drought ended in the spring of 1965, the Lottio Grove installed an irrigation system operated by electric pumps.

"The old trees were suffering severely and it was interesting to see how they responded to water," says Mr. Hughes. "Also, the new trees are given doses of water on sandy areas when we get a series of drying days."

Electric powered irrigation or seepage pumps are dependable, economical and labor-saving. Simple to control with float switch, time clock, or pushbutton.

## Karen Dexter Appointed To FYA Council

Secretary of State, Tom Adams, has announced the appointment of Karen Dexter to the Florida Youth Advisory Council. This will be the second year of the functioning of this Council, which was established by the Legislature and is under the direction of the Secretary of State. The Council serves as a clearing house for the thoughts, ideas, hopes and desires of the youth of Florida. Membership of the Council consists of the presidents of 13 statewide youth organizations.

## 4-Hers Enjoy Week At Camp

Reports are given by girls from the Gator 4-H Club on their week-long camp at Camp Cloverleaf. 4-H Camp Cloverleaf is at Lake Placid, Florida. There is a fresh water lake to go swimming in. The cabins have twelve sleepers. There is also a big recreation hall that is air-conditioned and the cafeteria has big and nice, like school cafeteria. Canteen is held twice a day, and at that time you can get Cokes, candy and other things. Each county has a week to enjoy the camp each year. This year at camp, the theme was the "Old West". Reporter, Renee Waugh.

## BOY SCOUTS' DIRECTOR LUCE

## Honored At Testimonial Dinner

Paul Luce of West Palm Beach, Boy Scouts Director for Glades District, was honored at a potluck testimonial supper Saturday night at Jamison Hall of Community Methodist Church.

"Paul has worked with us professionally for over 10 years. A Glades Scoutmaster leader said, 'He's done a wonderful job.'"

The event was arranged by Glades District Chairman of Scouting, Frank Thomas and was well attended by Scout workers and leaders and their families from all around the Glades. Officers from the Gulf Stream Council, West Palm Beach, were also present.

A resolution of appreciation was prepared by County Commissioner Bud Weaver, former District Scout Chairman for the Glades, and presented at the event on behalf of the County Commissioners.

Luce will be leaving some time this month for Atlanta, where he has accepted a job with a Scout Council.

A certificate of appreciation from the Gulf Stream Council was presented also to District Chairman Frank Thomas by the council president Tom Vernon.

The DARE projections for swine also show no need for changes, according to Dr. Cunha. Current information still indicates only a modest increase in swine production by 1975.

"The picture could change depending on results received from research now underway and other projects which are being considered," Dr. Cunha said.

Some early studies with blackspot molasses as a substitute for corn are encouraging, the UF scientist said, and if these studies prove successful, they could give an added push to the hog industry.

An extensive survey, in cooperation with the state extension service, is now being conducted to evaluate the status of the horse industry. Dr. Cunha explained that the industry has "tremendous potential" and said Florida could become one of the "top two or three states in the country" as far as light horse production is concerned.

Calcium chloride, bought by the pound at hardware stores, can be used to absorb moisture. Place it in open containers or in cotton bags to hang in damp closets, basements, or trailers. You'll also find it sold under various trade names in bags ready for hanging.

Mildew and mustiness in basements can be prevented by the use of dehumidifiers. Another method is to open windows when the air is cooler outside and use a fan to circulate the air.

The best way to prevent mildew is total air-conditioning. When air-conditioning is used, humidity can drop to 40 percent. Mildew doesn't have a chance.

Sponsors of the golf tournament are Elberta Crate and Box Company, Franklin Lumber and Basket Company, Georgia Crate and Basket Company, Pierpont Corbett Box Company, Talley's Box Company, Inc., Revell Crate Company, American Box Company, and Jacksonville Box Company.

Notice is hereby given that the following described lands, or as much hereof as will be necessary to pay the amount due for taxes herein set apart for the same, together with the cost of such sale and advertising, will be sold at public sale on the 1st day of August, 1966, at 1:00 o'clock, p.m., in the court room of the County of Palm Beach, Florida, for delinquent 1965 taxes.

## County Events Of Interest To District Number Five

(Continued From Page 1)

The termination of ambulance service throughout the entire county at mid-night, Sunday, July 28, is a grave problem that apparently has on easy solution.

Through the cooperation of the four local ambulance operators in the Glades area and the consideration and understanding of our two Hospital Boards and the City Commissioners of Pahokee and Belle Glade, some small progress is being made to plan for some measure of emergency interim ambulance service. While there is no evidence that a solution will be reached, it is extremely en-

couraging to note that all concerned are trying desperately to legally work out the mechanics of such a plan. If such a plan, as has been proposed, is work-out, here in the Glades, it will undoubtedly serve as a guide for the coastal area.

Through lack of enabling legislation the Board of County Commissioners is unable to operate, subsidize or provide this service to the people of our County.

Amended legislation during the 1967 session will undoubtedly make it possible for the County Commission to take whatever steps are necessary to provide this service or assist in providing for the entire County.

The Board of County Commissioners are very much concerned over the substantial increase in the 1966-67 by the School Board, the only reason for mentioning this in this column is to inform those of our citizens who understand that there is a responsibility of the County Commission, that they are indeed in error. After the adoption of the budget by the School Board, the County Commission is required by law to certify this budget to the County Tax Collector and this is where their legal jurisdiction ends.

We have no statutory authority over the School Board. The Boards concern at this time is in recognizing the fact that if adopted in its present form, the total of the School Board Budget will comprise approximately 75 percent of the total tax bill. The 1967 Legislature was certainly faced with the responsibility of finding some relief to property owners throughout the entire state. Our increasing educational needs make this a necessity.

tor's Hospital, Coral Gables, for the past 16 days. Mr. McClelland underwent surgery and is recuperating satisfactorily. We are all very happy to see both Mr. and Mrs. "Mac" back in our area.

## It's True . . . Believe It Or Not!

The belief of almost all residents of the Glades area that there is no fishing anywhere in the world like the fishing in Lake Okeechobee was proven last Sunday by a Belle Glade family.

Mr. and Mrs. Ted Sheridan, and their children, Frankie and Angie, were boating in the rim canal, preparing to pull a skier, family friend Eddie Huggins. While they were waiting for him to adjust his skis properly, the boat drifted close to the west shoreline, and as an attempt was made to push away from the shore with an oar, a bass

apparently startled by the sudden motion, jumped into the boat. The fish, approximately twelve inches in length, struck a young Angie in the chest, startling her and creating havoc among the rest of the family and several other boaters in the immediate area.

Since this sounded like a "fish out of water," the Sheridans were quick to point out that there were at least nine witnesses to the unusual catch. There are few other places, if any, in the world where you can catch a twelve inch bass without "hook, line or sinker."

## At Crestridge

On Monday morning, July 11th, the closing date of the first session the Drama group presented the musical, "My Fair Lady." Joan Harris had the leading lady part and did a fine job of acting in the play. Sharon Thiebaud, Arlene Lloyd, Ann Thompson, June Harris, Melissa Schoepel added much to the musical by their fine acting.

Those attending Crestridge from Belle Glade were Cynthia Thiebaud, Joan Harris, Ann Thompson, Aggie Gressinger, June Harris, Melissa Schoepel, Ann Cox, Sharon Thiebaud, Arlene Lloyd, Sue Gilbert, Lynn Gilbert.

Working together with the Florida Game and Fresh Water Fish Commission, it is hoped conditions will be improved to assist wildlife.

Agricultural interest in the Glades find themselves caught between the Department of Interior demands, sportsmen, and at times east coast flooding. Just think what the situation might be without the Flood Control pumps.
